## DECLINES TO ANSWER

DIRECTOR OF THE STANDARD OIL COMPANY REFUSES TO REPLY TO QUESTIONS.

### SUITS BY STATE OF MISSOURI

BOOKKEEPER OF THE STANDARD OIL COMPANY GIVES INTERESTING EVIDENCE.

New York, Jan. 6.—The taking of testimony in two suits brought by the State of Missouri to oust the Standard Oil company of Indiana, the Waters-Pierce Oil company and the Republic Oil company from Missouri and to prevent the carrying out of an alleged pooling agreement among the companies mentioned, was begun here during the day before Frederick W. Sanborn, a special commissioner appointed by Governor Folk. Herbert S. Hadley, attorney general of Missouri, conducted the state's case and attempted to show from the witnesses introduced that the Waters-Pierce and Republic companies were in reality but subsidiary concerns of the Standard Oil company, the Indiana branch of which conducts the Standard's business in the West.

During the day's hearing there were a number of lively tilts between opposing lawyers, one resulting in a demand by the attorneys for the defendant companies that the testimony be taken down verbatim in long-hand by the commissioner. Attorney General Hadley agreed to this, saying he could remain at the hearing as long as anyone else.

This tedious method of recording the testimony permitted of the examination of but two witnesses during the day. One of these was E. T. Bedford, a director of the Standard Oil company, who refused absolutely to answer any questions involving the Standard Oil company's affairs. He said he took the attitude upon the advice of counsel and had no other reason for doing so. The other witness was A. V. Jockel, formerly a bookkeeper for the Standard Oil company, who said he was transferred to the Waters-Pierce company's office at Oklahoma City without resigning his place with the Standard. He said he had been instructed to say the Waters-Pierce company was an independent concern, but declared Waters-Pierce barrels were filled with oil from Standard Oil barrels.

Attorney General Hadley said he would report recalcitrant witnesses to the supreme court and allow that tribunal to deal with them. The hearing will continue.

### ENORMOUS LOSS BY FIRE.

Very Destructive Blaze Visits Kansas City, Mo.

Kansas City, Mo., Jan. 6.—Fire in the retail quarter at night destroyed the three-story brick building of the Columbus Buggy company in Walnut street, near Tenth, the adjoining building occupied by the Kimball Piano company, and damaged the Commerce building, occupied partly by the National Bank of Commerce. The bank's loss was confined principally to an addition which it built to the Commerce building about a year ago. The entire loss is estimated at \$350,000.

At midnight the fire chief said that he feared the Commerce building could not be saved. The fire, which seemed to be under control at one time, got a fresh start in the upper stories of the Commerce building and the firemen were unable to cope with it. The destruction of the Commerce building would increase the total loss by \$250,000.

The vaults of the National Bank of Commerce are uninjured.

At 2 o'clock a. m. the chief of the fire department said the fire was practically under control and that only the floors below the fourth in the Bank of Commerce building had been seriously damaged.

### DIVORCE FOR MRS. SAWYER.

Prominent Wisconsin Woman Obtains a Decree.

Oshkosh, Wis., Jan. 6.—Judge Burel during the afternoon granted a divorce to Mrs. Carolina Upham Sawyer from her husband, Phil H. Sawyer. The ground given for the action was failure to support her properly.

Mr. Sawyer, the defendant, made no reply to the suit, which was quickly disposed of.

The court orders \$50,000 to be paid to the plaintiff as a final division of the property.

Mrs. Sawyer is a daughter of former Governor W. H. Upham of Marshfield. She has been very prominent socially in Oshkosh. Mr. Sawyer is a grandson of the late United States Senator Sawyer. His father, Edward R. Sawyer, and the son, are both very wealthy.

### GUARDED BY A POLICEMAN.

A. Maxcy Hiller Under Surveillance at New Haven, Conn.

New Haven, Conn., Jan. 6.—Coroner Mix, after hearing testimony in the afternoon and at night relative to the death of Charles A. Edwards of New York, who was found with a bullet wound in his head at the home of Charles A. Hiller Wednesday morning, declined to make a statement. A. Maxcy Hiller is held by the coroner as a witness, but is at his home, guarded by a uniformed policeman. The coroner said, however, that no charge of any kind had been made against any person.

A. Maxcy Hiller said that he would establish an alibi when the proper time came, but refused to discuss the mysterious case further.

The witnesses in the inquest during the day were Charles Hiller and Margaret Reynolds, the latter a servant in the house where Mr. Edwards was killed. No statement was given out as to the purport of their evidence.

A. Maxcy Hiller's counsel said that no writ of habeas corpus will be sued out for the release of his client and that he is satisfied that Mr. Hiller could have had no motive for injuring Mr. Edwards.

One of the interesting developments during the day and which at first looked to be important was that Mr. Hiller had turned over two pistols to the coroner for his inspection, the coroner later giving them to a gunsmith. It has since developed that the weapons were old firearms which had been a part of a collection in the Hiller homestead for years. The theory that the fatal shot was fired with one of these pistols is not seriously entertained by the police.

Although the police have not given up the hope of finding the weapon which caused the death of Mr. Edwards, they are convinced that it is nowhere about the Hiller homestead.

The body of Mr. Edwards has been taken to New York.

### PLEAD FOR PATRICK.

Prominent Men Sign a Petition to Governor Higgins.

Albany, N. Y., Jan. 6.—Governor Higgins has received a petition for the exercise of executive clemency in the case of Albert T. Patrick, the New York lawyer confined in Sing Sing prison under sentence to die in the week beginning Jan. 22 for the murder of the aged millionaire, William Marsh Rice. The petition is signed by nearly 100 well known persons, including lawyers, physicians and chemists, clergymen and laymen, and is based upon the ground that there is reasonable doubt of his guilt.

The signers of the petition include Grover Cleveland, John G. Carlisle, former Supreme Court Justice Harwell, Mark Twain, A. T. Hamilton, the well known alienist, Dr. Austin Flint, Rev. Dr. Charles H. Parkhurst, Rev. Dr. Madison C. Peters and David Belasco.

Governor Higgins said that he did not know when he would act upon the matter, but that he did not expect to give a public hearing. He would give no intimation of his probable action.

### PROMINENT MAN WOUNDED.

Charles Cristadoro Shot in His Office in St. Paul.

St. Paul, Jan. 6.—Charles Cristadoro was shot accidentally in the abdomen about 5 o'clock p. m. while in his office in the National German-American Bank building. It is thought that the bullet had not perforated the intestines, in which case the wound may not be serious.

Exactly how the accident occurred could only be surmised, as Mr. Cristadoro, who was temporarily alone in his private office at the time of the accident, was not in a condition to explain just what happened. The theory of several gentlemen who were in the main office and who rushed to Mr. Cristadoro's assistance immediately after the shot was heard is that in taking a revolver from his desk, preparatory to going home, it in some way was discharged.

Mr. Cristadoro is prominent as an author, inventor and sportsman.

### AGAINST HARRY ORCHARD.

Information Charging Him With Murder Filed in Colorado.

Cripple Creek, Colo., Jan. 6.—Deputy District Attorney Gillette has filed information in the district court charging Harry Orchard with the murder of J. W. Hartsock, one of the fourteen men killed in the Independence station explosion on June 6, 1904. The information is based on an affidavit made by Sheriff Bell. Orchard is under arrest at Caldwell, Ida., charged with the assassination of former Governor Steunenberg.

Gillette stated that if Orchard was released in Idaho requisition papers would immediately be asked for and he would be brought here for trial for murder in the first degree.

### For Defense of Sweden.

Stockholm, Jan. 6.—The council of state has instructed the general staff to advise a new scheme of national defense in view of the altered position of Sweden.

## SITUATION IS SERIOUS

ALTHOUGH THE OPEN REVOLT IN THE BALTIC PROVINCES HAS BEEN CRUSHED.

### REVOLUTIONISTS ARE ACTIVE

RUSSIAN TROOPS ONLY ABLE TO MOVE IN HEAVY FORCE IN SOME DISTRICTS.

St. Petersburg, Jan. 6.—The Associated Press has been permitted to inspect a report prepared for the emperor regarding the situation in the Baltic provinces. The report declares that though open revolt has been crushed in many parts of the provinces and though the local authorities who were deposed by the revolutionists are resuming the reins of government under the protection of the troops, the situation is still a very serious one.

In the districts of Dorpat and Parnau, in Northwestern Livonia, the troops are unable to move except in heavy force. A body of cavalry which made a forced light march from Walk, surprised an insurgent band at Rueu, but the peasants resisted until their ranks had been torn and shattered, when they surrendered their arms and their leaders.

There is a strong concentration of insurgents in the villages of Melzeluk and Lemcal, further to the westward, which must be attacked and broken up. A band of insurgents attacked General Orloff and his escort of a squadron of cavalry near Marienburg, but the attack was repulsed and the leader captured. The latter was immediately tried by a drumhead court-martial and shot.

The advices received by the government report the capture of an important arsenal of the revolutionists at Temernik, in Southern Russia, in which were found not only rifles, bombs and explosives, but also a small field piece. Another arsenal near Nakhitchevan caught fire and an explosion followed, resulting in the killing of twelve persons and the wounding of nine others.

### ATROCITIES IN RUSSIA.

Bodies of the Dead Mutilated to Terrify the Living.

New York, Jan. 6.—Reports of how the dead are mutilated to terrify the living in Russia were brought here during the day by Russian refugees, 700 of whom arrived on the steamer Pennsylvania. One woman told of having seen a young married woman kill her child sooner than let the Cossacks murder the infant.

Another refugee related how in the town of Nova Moscow five drunken soldiers marched through the streets carrying arms, a dead baby with a bayonet run through its body being displayed at the end of each gun.

Lover Landominski, a dry goods merchant, said that it was a common thing to see men strung up feet first and lying dead along the route of the railroad.

Hirsch Lusczmiski, with his wife and two children, was another refugee. He is a lumber merchant at Lenkowsk. He said: "The civilized world will never know the extent of the shocking outrages that are constantly inflicted upon the women of our faith. I saw a Russian town attacked on Oct. 18 and 300 Jews were put to death. The women were thrown out of the windows and the men were beaten over the head by rifle butts, and bayonets were run through the bodies of the children."

Other refugees told equally horrible stories of the outrages they witnessed.

### ALL BODIES RECOVERED.

Twenty-three Men Perished in Cooper Coal Mine.

Roanoke, Va., Jan. 6.—The bodies of all the twenty-three miners killed in the gas explosion in the Cooper Coal mine at Coaldale, W. Va., Thursday have been recovered. Nearly all of the victims were found lying with their hands covering their faces. One body was in a sitting posture on a pile of coal, the hands covering his face.

### BRITISH FLEET AT HONGKONG.

Was Not at Wei-Hai-Wei During Battle in the Sea of Japan.

London, Jan. 6.—Referring to the statement of Admiral Rojestvensky that the British fleet in far Eastern waters intended to crush the Russian fleet in case the Japanese failed to do so at the battle of the Sea of Japan, the Times points out that the British fleet at the time of the battle was at Hongkong and that only one cruiser and a dispatch boat were at Wei-Hai-Wei.

### PRINTERS' STRIKE IN NEW YORK.

Both Sides Appear to Be Making Some Gains.

New York, Jan. 6.—The Typographical union announced at night that three firms of employing printers, members of the Typothetae, had acceded during the day to the union's demands for an eight-hour day and a closed shop and that about 150 of the striking compositors will at once go back to work. Early in the day it was announced that Pusey & Co. and A. G. Sherwood had signed the union agreement and at night the Wynkoop, Hallenbeck, Crawford company set tied with the printers.

On behalf of the Typothetae it was announced that the fight for the open shop and the nine-hour day was going forward steadily. The American Bank Note company, it was stated, although not a member of the Typothetae, had come out for the open shop principle. The Typothetae announced that 260 nonunion men are now working in fifty "open shops" in the city and that the number constantly is being increased. To assure the nonunion men of permanent employment, the Typothetae deared that personal contracts for one two and three years would be entered into.

### GAIN OF SIXTEEN MEN.

Reported by Members of the Typothetae at Philadelphia.

Philadelphia, Jan. 6.—A further gain of sixteen men was reported during the day by members of the Typothetae in the strike of the union printers for an eight-hour day. George McDade, the representative of the master printers, said that this number of new men had been put to work in various shops in the city, whereas no additional men had gone out on strike. According to McDade more than 60 per cent of the places of the strikers who quit work have already been filled.

The union printers express themselves as satisfied with the situation. Officers of Typographical union No. 2 said that twenty-seven firms had signed the eight-hour agreement. They refused to give the names of firms but said that among them are three firms which employ sixty-six men, all of whom will return to work on Monday.

### COUNTRY IS AGAIN PEACEFUL.

Revolution in Santo Domingo Believed to Be Practically at an End.

Washington, Jan. 6.—Cable advices received at the state department from Santo Domingo announce that the revolution is practically at an end; the troops are dispersing to their homes and the country is again becoming quiet.

The secretary of war has received the following cablegram from Colonel Colton, the comptroller and general receiver of Dominican customs:

"Carlos F. Morales legally impeached by congress. Raymond Caceres acting as president in accordance with the constitution pending final action by supreme court. This

eliminates Carlos F. Morales from the situation and leaves without question the legality of the Caceres government."

Additional advices received at the state department from naval sources as to the collapse of the Morales rebellion in Santo Domingo and the resulting conditions there were as follows:

"The rebel gunboat Independencia was seen Thursday night off Puerto Plata. Desultory firing all day Thursday. Caceres apparently successful. Thirty men killed and sixty wounded on Caceres' side. Loss on other side unknown. Medical assistance is being sent from the American warships to the wounded ashore under the Red Cross flag. The death of Rodriguez was a great blow to his party. Seven American citizens have been taken aboard the Scorpion. No casualties among the Americans. Hostilities have ceased."

### ALL DEPENDS ON GERMANY.

Her Attitude Will Determine Results of Conference.

London, Jan. 5.—"So long as Germany confines her demands at the conference to opening Morocco to foreign trade on an equal basis there will be no difference of opinion at Algeiras," said an official of the foreign office in an interview. "There is some fear that the German delegates may insist on regulations clashing with what France considers her special privileges, for instance, the policing of the frontier. In fact it is stated in trustworthy circles that Germany may introduce a claim to placing German soldiers in Morocco. This France is certain to resist and under the agreement Great Britain must uphold her contention. Otherwise there is no danger of a disagreement, but it is impossible to say what might happen, as Germany is maintaining the strictest secrecy regarding her intentions. The appointment of Count von Tattenbach-Ashold, the former special representative of Germany at Fez, as the second delegate of Germany at the conference, has perhaps weakened this feeling of confidence, as he is understood to be opposed to France's policy in Morocco. It is unfortunate that suspicions are aroused at this time, because it seems impossible to remove them before the conference meets. Therefore the differences must be fought out at Algeiras."

### Decided Against Mrs. Duke.

Trenton, N. J., Jan. 6.—The court of errors and appeals during the day denied the application of Mrs. Lillian M. Duke for a stay in the divorce proceedings instituted against her by her husband, James B. Duke, pending an appeal to that court from Vice Chancellor Pitney's decision holding Mr. Duke to be a resident of New Jersey. As a result of the day's decision the divorce proceedings will go on.

 THE Little Falls Herald thinks that if the domination of the steel trust follows the development of ore lands in Crow Wing and Morrison counties, the discoveries will not be an unalloyed blessing.

AND now comes the news that a good quality of bituminous coal has been discovered in Carlton county, and diamond drills are at work and the district being prospected. If a good commercial quality of coal is found as indications would seem, linked with recent discovery of iron in this and adjoining counties the future of Northern Minnesota is assured.

THE railroads of the northwest are putting "auditors" on their passenger trains whose business it is to collect the tickets the "equivalent" and see that the business end of the running of the trains is conducted in the proper manner. The conductors who used to be the whole thing now attend to the running of the trains and attend to the wants and comforts of the patrons of the road and assist the auditors if called upon. The old time conductor seems to be a thing of the past.

IT is said that a railway postal car earns on an average \$35,000 per annum while the earning of a passenger coach averages about \$10,000 for the same length of time. The government contract for carrying mail matter is eight cents per pound on railroads and if the earning capacity of railway mail cars and passenger coaches has been properly computed it would seem that there is more money in transporting Uncle Sam's mail than in carrying passengers, and some people think the difference is too large.

**One of the World's Greatest Remedies.**  
 Mr. S. P. Mason, of Markle, Ind., writes:—I have been in the drug trade twenty years and have handled your White Wine of Tar fifteen years. I have never sold a remedy that equals it. Fifteen years ago, I bought a bill of this medicine from your agent. The first bottle I put out was for asthma in the case of Jos. Ledbetter of this town. The Dr. said he could not live. One bottle of Warner's White Wine of Tar cured him and he is still living. I think the world should know more of this wonderful remedy. For sale at Johnson's Pharmacy and H. P. Dunn & Co. t-tslm

## COUNCIL HAS SHORT SESSION

Permission Granted City to Use Right of Way Near Freight Depot for Rock

### ELECTRIC POWER IS LEASED

Thirty-five Horse Power Leased To the Mahlum Lumber Co. For Two Years

There was a meeting of the city council last night, adjourned from Monday night, which night the meeting should have been held but there was no quorum.

The following aldermen were present: President Johnson, presiding, Halladay, Gardner, Peterson, Squires, Opsahl, Armstrong, Baker, Towhey and Farrar. A communication was read from Supt. Blanchard, of the Superior division in answer to a letter written him by Clerk F. E. Low asking, on behalf of the council, permission to use the right of way near the old freight depot, to deposit rock thereon, during the time that the streets are being macadamized in this vicinity. The permission was given by Supt. Blanchard to use the right of way, under conditions which have been submitted to G. W. Mosier, agent for the Northern Pacific at this point.

The application of the Mahlum Lumber company for 35 horse power from the electric light plant was considered. A contract was submitted by City Attorney Mantor which was finally adopted as to form and the city clerk was authorized to have contract entered into. The contract specifies that the company be given the horse power asked, 10 hours a day, for \$50 a month.

The matter of repairing the stone crusher was left in the hands of the street committee with power to act.

In view of the recent experience with the Laurel street bridge the matter of taking precaution in the future was discussed. Some were in favor of tearing out the approaches, while others thought both ends should be barricaded. This latter proposition would relieve the city of all responsibility, according to the city attorney's views. In this connection the city attorney thought the bridge should be condemned and record made of instructions given the street commissioner to build a fence at both approaches. A resolution was passed to this effect.

# MYSTERIOUS DEATH OF YOUNG RAYMOND CALE

Found in Unconscious Condition  
By Officer Derocher This  
Morning at 5 O'clock

CAME IN ON MORNING TRAIN

At About 7:30 O'clock Died After  
He Had Been Taken to St.  
Joseph's Hospital

Raymond Cale, a young man well known in this city, died this morning at St. Joseph's hospital, having returned from Motley on the morning train, and there is a deep mystery surrounding the affair.

Coroner Gibson has charge of the body and late this afternoon an autopsy will be held and the cause of death will be determined. Dr. Thabes was called to attend the young man, but he had not been with him but for a short time before the latter died.

Raymond Cale was picked up at about 5 or shortly after this morning just across the old mill track on Seventh street, lying on his back with his hat and gloves off, and in an unconscious condition.

The young man had been working in this city up to the holidays for Brockway & Parker, returning to his home at Motley at that time until he could find another position. When he went home his uncle, L. J. Cale, told the young man that as soon as there was an opening in his store he would put him to work. Yesterday Mr. Cale decided that he would send for the young man and wrote him to come at once and go to work. The fact is Mr. Cale had a great

liking for the young man and stated this morning that it was his firm intention of giving him an interest in the business. The boy's father, B. F. Cale, lives at Motley and is quite well known in this city. Young Cale was in the best of spirits at his home yesterday, and last evening went out to a party nearby where most of the time was spent with old friends during the evening.

The young man spent the hours happily at his old friend's home and according to information received by telephone from Motley this morning he was the most happy of the entire throng that gathered last night, laughing and joking about his going to leave them and that it was a farewell for him, etc. The train was late this morning and did not reach Motley until about 4 o'clock, the time that it should have reached Brainerd. Clem Thompson, a well known resident of Motley, and a friend and acquaintance of the young man, was at the depot waiting for the train and he was with young Cale up to within a few minutes before he was found.

They rode in the same seat together from Motley here and Raymond was in the best of spirits all the time. He talked freely of his intentions of remaining in Brainerd for all time to come and thought that he had a good position with Mr. Cale. When they got to the N. P. Sanitarium Mr. Thompson said, "Well Raymond this is where we put on our coats." They got up and put their coats on and when they reached the depot here they walked down Sixth to Laurel and then east on Laurel to the National hotel where Mr. Thompson stays. Young Cale carried a dress suit case in his hand. When in front of the

National Mr. Thompson asked the young man where he boarded and he was told at the Windsor. "How much do you pay for your board," said he. "24 a week," was the answer and they parted and bade each other goodnight. That was the last seen of him by anyone, until Officer M. Derocher found the lad lying on his back in the snow.

Comparisons bring out the fact that it could not have been over five or ten minutes after Mr. Thompson left Cale before he was found by Officer Derocher. The officer states that it was about 5 o'clock when he found the young man. He was lying on his back, having swerved around just as he had gone over the old mill track and fell in a bank of snow. His hat fell off and it lay at the side of the dress suit case near his feet. His head was half buried in the snow and he had no gloves or mittens on. Had it been longer than ten minutes that he lay in this condition, with the temperature as it was this morning, it is believed that he would have been frozen stiff.

Officer Derocher tried to arouse the young man, but could not and he then went for assistance and Captain Hurley went over and they carried young Cale to the National hotel. He was unconscious but seemed to mutter between long breaths, "Motley, Motley." At the National he vomited and Officer Derocher thought he had been drinking, but this was not so. The young man never drank and was exemplary as to his habits, etc.

A doctor was called and E. C. Bane and L. J. Cale were aroused and the young man was taken to St. Joseph's hospital where he died about 7:30.

Just before returning to his home when the holiday season closed Cale was working for Brockway & Parker. He had worked for L. J. Cale for about two years and was very well known in this city. He was a young man of excellent habits and stood high in the community. He was 21 years of age just past and was born in this city, his father, B. F. Cale, having been in business here for some time.

## MUSIC AND DRAMA.

"THE BLACK CROOK" TONIGHT

Along the highway of theatrical history, stand mile-stones of fame. One of these monuments is marked "The Black Crook." The Black Crook was an epoch in theatrical annals as the first production of spectacular drama. There have been many spectacles since, but none have overshadowed the glory of the old "Black Crook," nor dimmed the lustre of its ancient brilliancy.

The gorgeous setting of this lowly romance is the attraction of "The Black Crook." The love of Rudolphe for Amina, which is frowned upon by Count Wolfenstein, who is aided in his evil designs by the machinations of the Black Crook, when they are in turn overpowered by the magic of the fairy queen, Stalacta. So runs this charming romance which will be produced at the Brainerd opera house tonight with its mass of ballets, dances and specialties.

## REV. EDMANDS' BODY NOT FOUND

Report Sent Out of the Finding of His Body Wednesday is Erroneous

## DEATH DUE TO AN ACCIDENT

Mrs. Edmands and Daughter are Preparing to Return to Former Home in East

The report sent out to the associated press that the body of Rev. T. M. Edmands had been found in the Red river appears to have been untrue according to the following telegram under a Wahpeton headline in the Fargo Forum:

There is absolutely no truth in the reports wired from Breckenridge that the body of Rev. Edmands has been found in the river. A diver was here for two days and a thorough search was made of the river, near where the body was thought to have been located. A wire netting was placed across the river at a point considerably below the point where the minister is supposed to have fallen through the ice. The intervening space was carefully searched with no trace of the body. Efforts to find the remains have now been entirely abandoned.

The theory that the disappearance of the minister was due to accidental drowning is generally held here. The first suspicions of possible suicide have disappeared and it is thought the body will be found in the spring after the ice breaks up.

Mrs. Edmands and daughter are preparing to return to their former home in the east.

## CHAMP CLARK TALKS

MISSOURI CONGRESSMAN ENTERTAINS THE HOUSE WITH AN INTERESTING SPEECH

### THE ORIGINAL STANDPATTER

NOTED MISSOURI ORATOR SO DESIGNATES CONGRESSMAN M'CLEARY OF MINNESOTA.

Washington, Jan. 6.—"Champ Clark Democracy" was expounded to the delight and entertainment of the house for three hours during the day by Mr. Clark of Missouri, and constituted the feature of the debate on the Philippine tariff bill. Mr. Clark's speech took a wide range and he labeled his political beliefs as above in answer to a question as to what kind of a Democrat he really was. He talked of the Philippines and favored the pending bill, he discussed the general tariff question and in particular the German tariff situation. He reviewed William J. Bryan's record on silver and paid his respects in characteristic oratory to Republican leaders. He ascribed future greatness to what he termed the "great stand pat" disciples and declared that one of these, Secretary Shaw, whose record as secretary of the treasury included, he said, classifying frog's legs as poultry and ponies as "household articles," for the collection of revenue, was a logical Republican presidential possibility unless the mantle should fall on "the gray and grizzled speaker, Uncle Joe Cannon."

Mr. Clark characterized Mr. Mc Cleary of Minnesota as "the original standpatter."

"He would make the Dingley tariff the minimum and God only knows how high the maximum," added Mr. Clark.

Speaking from the forum in front of the speaker's desk, Mr. Clark addressed many of his positive assertions directly to the Republican members. He was interrupted many times and these interruptions generally resulted in responses that delighted both sides.

The fight against the bill was opened in the interest of the beet sugar industry by Mr. Fordney of Michigan. He recalled the Republican members to their pledges on the stand pat policy of the party.

#### IMPORTANT CONFERENCE.

Held at the White House on Various Subjects.

Washington, Jan. 6.—An important conference which covered a wide range of discussion of the internal management of the war and navy departments was held at the White House at night. It was participated in by Secretaries Root, Taft and Bonaparte and Attorney General Moody, and lasted from 9:30 to 11:30 o'clock. None of the cabinet officers present was willing to say specifically just what matters were under discussion but Secretary Taft, in response to questions, admitted that any conclusions which may have been reached were not matters for legislative action, but were such as would require only executive approval. The proposed changes in the navy personnel bill affecting the promotion of officers, which is now before congress, was mentioned during the evening's discussion. From the length of the conference it is believed that matters affecting the Philippines, Panama, Santo Domingo, the general board of the navy and the general staff of the army also may have been brought up.

#### FOR ANNOYING ROOSEVELT.

John Peabody of New Jersey Placed Under Arrest.

Montclair, N. J., Jan. 6.—John Peabody, who lives just over the Orange mountains here, was arrested by secret service officers from Washington during the day on a charge of annoying President Roosevelt. For months the president, it is alleged, has been receiving letters attacking him for his position on the Panama canal question, on railroad rebates, and, in fact, on every prominent matter that has come up for discussion. These letters are said to have been offensive and were mailed at different points in this state, some at Bloomfield, some at Montclair and some at Verona. The writer gave his name but not his address and there was much difficulty in finding him. The detectives say he was finally found here in a public library, where he was preparing another letter when he was arrested. Peabody was taken before the authorities and after a severe lecture upon promising to cease annoying the president with his letters, he was allowed to go.

#### FIRE AT FORT ATKINSON, WIS.

Plant of a Manufacturing Company Badly Damaged.

Fort Atkinson, Wis., Jan. 6.—Fire at night caused a loss of \$85,000 in the plant of the Northwestern Manufacturing company and threatened the business district of the city. Firemen were called from Janesville and Jefferson and the flames were checked when they reached a line of brick buildings. Two large wooden structures nearly filled with oil and varnish were destroyed.

## ROJESTVENSKY'S EXPLANATION.

Fails to Satisfy British Embassy at St. Petersburg.

St. Petersburg, Jan. 5.—As a result of the representations made by Mr. Spring Rice, the British charge, to foreign Minister Lamsdorff, Admiral Rojestvensky explained in the Novoye Vremya that the minister of marine was now responsible for the letter published Wednesday, which was merely the Admiral's personal opinion, which Rojestvensky maintains he had the right to express. The British embassy is not satisfied and has reported the matter to London, whence it is expected something in the nature of a formal disavowal will be demanded.

#### CATARRH CANNOT BE CURED

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the two ingredients is what produces such wonderful results in curing Catarrh. #### A Modern Miracle.

"Truly miraculous seemed the recovery of Mrs. Mollie Holt of this place," writes J. O. R. Hooper, Woodford, Tenn., "she was so wasted by coughing up puss from her lungs. Doctors declared her end so near that her family had watched by her bedside forty-eight hours; when, at my urgent request Dr. King's New Discovery was given her, with the astonishing result that improvement began, and continued until she finally completely recovered, and is a healthy woman today." Guaranteed cure for coughs and colds. 50c and \$1.00 at H. P. Dunn & Co., druggists. Trial bottle free.

#### WILL DEFY THE SENATE.

House Commerce Committee Decides on Plan of Procedure.

Washington, Jan. 6.—The house committee on interstate and foreign commerce has decided to defy the senate in connection with all lighthouse measures and similar bills, which must be passed on by the committee. It has been the practice of the house to frame these measures in such a way that a sum of money not specific but not to exceed a certain amount, is to be used for the particular improvement. The senate invariably has changed such bills so they appropriate a fixed amount. This system is regarded by the members of the house interstate and foreign commerce committee as being conducive to reckless expenditure and the members of the committee will refuse to accept such a bill hereafter and purpose forcing the senate to indorse measures which will encourage the completion of work at the lowest possible cost and the saving of balances which may remain.

#### Found Dead in an Alley.

Chicago, Jan. 6.—Mrs. Carl O. Almborg, 1517 Albine avenue, Lake View, and J. E. Moller, a traveling salesman, long a friend of the Almborg family, were found dead in an alley near Albine avenue and Buckingham place at midnight. Each had been killed by a revolver shot in the temple, the weapon which caused their death being found beside Moller's body.
